# Sound Science

In the pictures above, color the brass instruments yellow, the woodwind instruments blue, and the string instruments red.

Then find all the instrument names in the word search. Circle the brass instruments with yellow, the woodwind instruments with blue, and the string instruments with red.

 TUBA  
 VIOLA  
 VIOLIN

# Vibrations create sound.

Fill in the blanks with words from this word bank:

strings  
lips  
air  
reed

The musician's \_\_\_\_\_  
vibrate.

The \_\_\_\_\_  
vibrates when it hits the  
edge of the hole.

The \_\_\_\_\_  
vibrate when plucked or  
bowed.

The \_\_\_\_\_  
vibrates when air passes  
by it.

Sound waves illustrate if  
a sound is high or low and  
loud or soft.

# Big things produce low sounds. Small things produce high sounds.

For each pair of pictures, circle the thing that makes the lower sound:

High = narrow

Musical waves have repeating patterns. Noise waves are random, with no clear pattern.

Noise = random

**Draw a picture of yourself playing your favorite instrument.**

What instrument do you like the best? \_\_\_\_\_

What family does it belong to? \_\_\_\_\_

What vibrates to make it sound? \_\_\_\_\_

Draw what you think its sound waves look like when you play it:
